

ASMISS

Product Catalogue

**A focus on
quality products,
technical excellence
and exceptional customer
service has been the
cornerstone of the
Asmuss Group philosophy
for over 90 years.**

Founded in 1920, the Asmuss Group has supplied many of the biggest industrial and construction projects in New Zealand and is one of the largest privately-owned companies in its field.

Nationwide coverage

With branches strategically located throughout New Zealand and a head office in Auckland, we provide an integrated approach for our customers by coordinating our resources across the Group to ensure they receive the optimal product combination tailored to meet their specific requirements.

Comprehensive product range

We have over 200 suppliers sourced worldwide, including our exclusive agencies in the New Zealand market. With a comprehensive inventory in our warehouses, we are able to supply most of our product range within days.

Service driven

Our dedicated team of specialists provide technical expertise, quick response for indent enquiries, fast turnaround times for supply, and comprehensive after sales support. A total commitment to customer service and low staff turnover ensures we provide our customers with continuity and comprehensive knowledge.

We are continuously assessing the latest developments in industry, both nationally and internationally, and work closely with our suppliers to identify new products and technologies that will suit the requirements of the New Zealand market.

Proven track record

We have supplied some of the largest infrastructure projects in New Zealand, including:

- Fonterra Darfield dairy factory
- Tauranga Wharf extension
- Lyttleton Wharf builds
- Wairakei geothermal plant expansion
- Forsyth Barr Stadium
- Eden Park redevelopment
- Victoria Park tunnel

Diverse industry sectors

Our products are used in a wide range of industries, including industrial and commercial construction, pulp and paper, dairy, agriculture and horticulture, power and energy generation, water and waste water, petrochemicals, fire protection, and heating and ventilation.

Quality management

We have comprehensive health and safety and quality control systems with ISO accreditation. Long standing relationships with our suppliers and service providers have ensured consistent supply of quality product, and many have internationally recognised quality systems.

A GROUP OF SPECIALIST COMPANIES

HJ Asmuss

HJ Asmuss services customers throughout the North Island, including Auckland, Wellington, Hamilton, Mt Maunganui and Hawkes Bay. They specialise in steel, fittings, fencing and valves, and are agents for key valve brands such as Metso, Bray, Flowserve and Kadant Johnson.

Asmuss South Island

Asmuss South Island have offices in Christchurch, Dunedin and Nelson and specialise in the steel and construction and water reticulation industries.

Asmuss Plastic Systems

Established in 1986, Asmuss Plastic Systems is a leader in plastic pipeline technology and have a team of experienced piping professionals dedicated to providing specialist expertise to their customers. They stock key brands such as Ritmo, George Fischer, Signet, Durapipe, Durafuse, Wetatherm, FIP.

Asmuss Brooking

Asmuss Brooking provides comprehensive supply service of engineering & Asmuss Group products. Special expertise is available for conveyor belt installation/repairs, hydraulic hose and fitting supply, manufacture of rubber/gasket sealing products. Stockists of hand tools, lubricants, pressure gauges and general industrial products, agriculture hoses and fittings, welding equipment along with Bearing and power Transmission products.

They are an authorised distributor of SKF, Weldwell & Viking conveyor products. They provide steel and stainless steel cut to a desired length, along with machining and manufacture of engineering products for various applications.

PRODUCT RANGE

The Asmuss Group of companies provide the following range of products to the New Zealand market.

Steel

- Full range of merchant bars including mild steel flats, angles, squares and rounds
- Mild steel channels
- Steel plates
- Structural steel sections including channels, beams and columns
- Square and rectangular hollow sections

Fittings

- Malleable
- Wrought steel
- High pressure
- Roll grooved
- Scaffold
- Butt weld
- Flanges

Pipe

- Galvanised
- Primed
- NOPC (No Oil or Protective Coating)
- Welded and API
- Seamless
- Plastic

Valves and controls

- Ball
- Butterfly
- Gate
- Globe
- Check
- Knifegate
- Rotary and linear control
- Pneumatic and electric actuators
- Analogue and digital positioners
- Switches and feedback devices
- Strainers
- Relief
- HVAC valves and associated products

Steam joints and rotary unions

Fencing

- Galvanised and plastic coated chain link netting
- Galvanised and plastic coated wire
- Security and swimming pool fence panels and accessories
- Fence fittings
- Barbed wire

Plastics

- Industrial plastic pipe systems in PE, ABS, PVC, CPVC, PP, PVDF, PB and PFA
- Industrial plastic valves and controls
- Machines and tooling

Hydraulics

- Hydraulic hoses
- Hose ends
- Adaptors
- Full range of hydraulic accessories
- On-site hose replacement service

Water reticulation

- Ductile iron fittings
- Hydrants
- Sluice valves

Engineering supplies

- Belting
- Fasteners
- Gaskets
- Hand and machine tools
- Bearings
- Sealants
- Adhesives
